

Steam Distillation Plants

AROMATIC OIL DISTILLATION PLANT (Capacity 50-100Kgs)

Biomass Loading Capacity (Aromatic crops)	: <u>50 Kgs</u>	<u>100KG</u>
A) BASIC PLANT	USD 10,000	USD 13,070
Basic plant consists of items 1 to 5 listed below.		
1.	Vessel in S.S.304	- 1 No.
2.	Boiler (wood fired)	- 1 No.
3.	Condenser with S.S.304 tubes	- 1 No.
4.	Pipes & Fittings	- 1 Set.
5.	Oil Separator	-1 No.
(S.S. 304)		
	-----	-----
	USD 10,000	USD 13,070
	=====	=====

Spl. Note: - This plant is suitable for all varieties of Aromatic Grasses, Spices, Flowers and other oil bearing biomass plant materials. In case of patchouli the loading capacity will be 50% only. Loading capacity will vary on oil content and density.

Other options such as gas burners for boilers may be obtained.
